AQUATICS.

THE FOUR HUNDRED SOVS. CHAMPIONSHIP MATCH BETWEEN CHAMBERS AND EVERSON.

The second instalment of £25 a side, in this important contest, is to be delivered at Mr. Elliott's, Star and Garter, Arbour-square, Commercial-road East, on Tuesday next, when a large number of river-side habits is expected to be present—not alone from the simple fact that, as a champion match, the race has been questioned at the stakeholder's head-quarters, on account of Chambers receiving £20 expenses, but to see if early arrangements cannot be made touching the hiring of a certain number of steamers, as a joint-stock affair, to keep properly astern of the scullers.

CHAMPIONSHIP OF THE TYNE.

We understand the Newcastle public have taken the initiative in a very desirable matter, and are at present raising a subscription amongst the aquatic supporters to present Chambers with a massive silver cup for being Champion of the Tyne; he must, however, keep it against all comers for a period of three years before it becomes his private property. Nearly half the required amount has already been subscribed. It is a great pity that the metropolitan fraternity cannot dispense with the paltry expense controversy and follow a like example. There is no denying but that if a suitable trophy was provided for the Championship of the Thames, with certain stipulations attached to it, there would be no necessity for a similar exhibition of feelings as that which originated in the unseemly discussion between our Champion and Everson. In our opinion this is the best and only mode of satisfactorily settling the dispute, and we think, if our contemporaries would advocate the like, instead of opening their columns to a nonsensical and party disturbance, the matter would soon be consummated. We shall be happy to receive subscriptions in furtherance of this object.

SWIMMING.

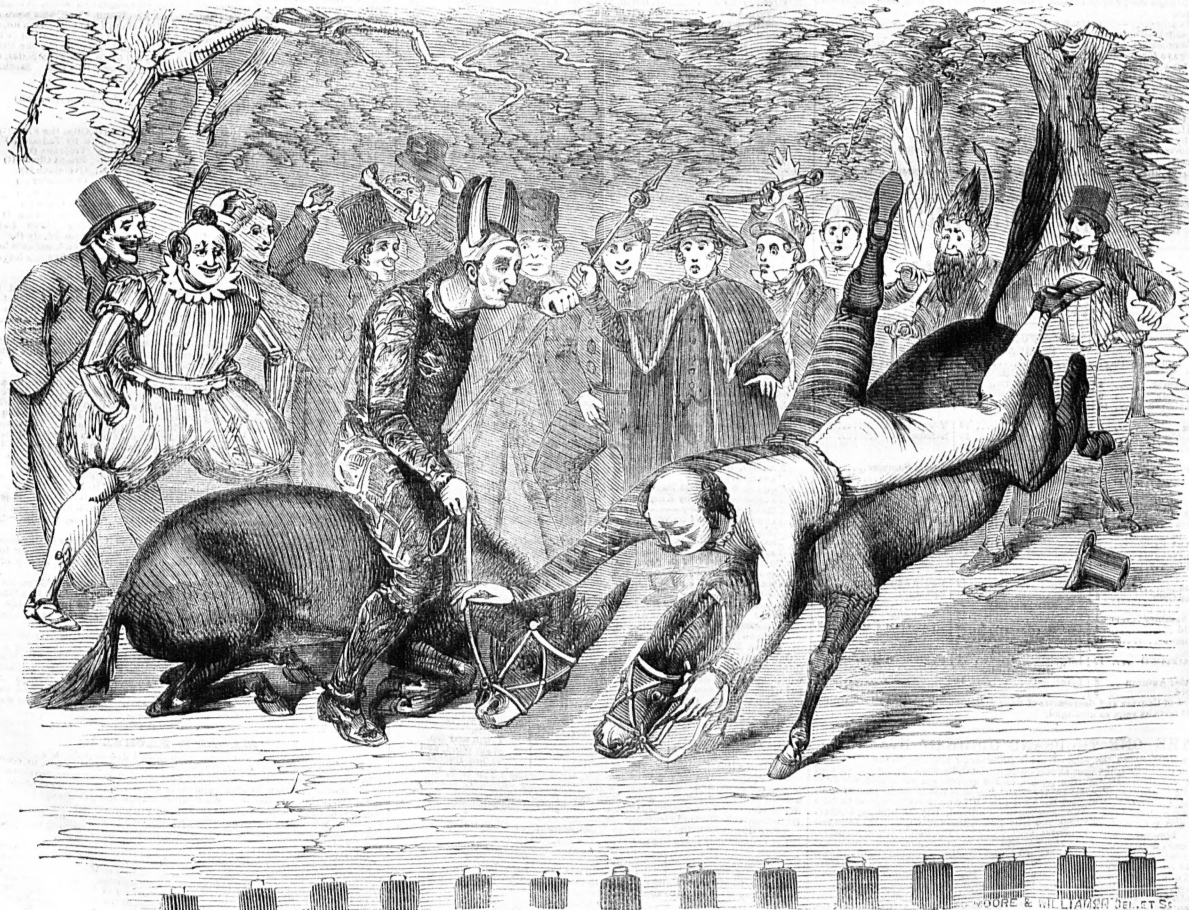

LONDON SWIMMING CLUB.

We announced in our last number that a silver star would be contested for by the members of the London Swimming Club. That event came off, on the 26th inst., to the general satisfaction of the public and the members present. The first heat was won by Drakeford, beating H. Evans. Second heat: Won by Payton, beating Ingram. Third heat: H. Bartlett, Evans, and Sowton—the latter winning. In the final heat Drakeford was declared the winner.

We would recommend those of our readers who have not witnessed a race of swimming in clothes, to visit Endell-street Baths on the first Friday in February, between eight and nine o'clock p.m., on which occasion there will be another competition, for a similar prize, under the same conditions as before—Jones and Drakeford, the two last winners, debarred, as it is hoped the new members will have gained sufficient practice to compete for it.

Among the company present was Donovan, whom we were glad to welcome to the shores of England. He is the greatest swimmer of the present day, and it would be a great treat to the Londoners if his stay in England could be extended to allow him to contend for the champion cup of England. Malher, who holds the cup, and Donovan, being both powerfully built, the contest would create great excitement.

When the committee started the idea of getting a cup of the value of £50 for the championship, they did not think it difficult to realise the amount; but we are sorry the subscriptions fall short of the required sum. Therefore, they have got up an entertainment at Deason's Music Hall, for Feb. 10th; and we hope our readers will patronise it by the purchase of tickets—for tickets only will benefit them—to be had of Mr. Underhill, 18, Cross-street, Hatton Garden; or of Mr. Williamson, 188, Strand; and at the Hall. At the time of the first contest a bond was given for the amount. The cup will be finished by March 1st, full particulars of which are given in our 21st number. We shall be glad to further the object by receiving subscriptions.

THE GREAT ONE HOUR'S RACE BETWEEN DEERFOOT, THE
SENECA INDIAN, AND EDWARD MILLS OF HACKNEY.

Walker, Deerfoot looked unimpressed, as if "the man and the deer" were a familiar sight. Deerfoot, for his very physical condition, seemed to possess an almost uncanny strength and endurance, and was exactly suitable to the extremely heavy nature of the track which he had to traverse. Milner was waited upon by the usual saddlebag men, and displayed by his friend Sam Barker. So strong was the apparent disparity of conditions between the competitors that the helmsman speedily rose to 2 to 1 on Deerfoot; and we have every reasonable ground for believing that there was a fair amount of speculation. The referee having been chosen, W. Price, the M.C. of the ground, drew the starting pistol, and the men immediately started for their time trials. Deerfoot ploughed the way with careless gait of indifference, as if he was sitting out for "the happy hour" of the afternoon. At the top of his speed, he hurled the first mile, rather better than the second, in four and eleven under five. He was still ahead in the next mile, at the finish of which the time of 10 min 5 sec was taken. At the third mile took 11 min 35 sec. The redskin had now increased his lead to between four and five yards, but the game representative looked somewhat warming to his work, and, really, as on his third mile. While running the twenty-seventh lap the hero of the Par was suddenly made a wild, yet energetic, chase to the "for ward," and, with Indian quickness, was speedily overtaken by the "man." This mode of play, full ten or twelve yards in the van. "The Indian" was a very strong, and well built black foot

the moment, but in a second the game little fellow laid himself down to a terrific sprint, and in the midst of the increased excitement and suggestions of the company, who now began to imagine that he was showing his correct form, Mills increased the pace and the gap between them. For a couple of strides the opponents were shoulder to shoulder, with Mills, fully upon the heels of the other, giving the go-by in the twenty-eighth lap, and waving his hand by a considerable margin. The forty-second mile was traversed when twenty minutes twenty-five seconds had been checked. At the termination of the race (see mile 28-50) the Indian again resumed his position in front, but the least again alternated between the competitors before the end of the mile, but time—thirty minutes forty-five seconds—Deerfoot still in the ascendant, and still displaying that dogged, determined look so strongly identical with all tribes of the Indian prairies. Seventh mile well over by 36-00, and, while careering along the railway embankment and the reserved sand, in the next lap, the swarthy again unweaving his withers, and was a defiant challenger to the white sixteen yard.

The next mile was covered as it was clocked at 41-min 25-00, when Martin's dash paid away in front, and Mills, after four turning the ninth mile—time, 44-min 00-00—both spurted madly, and, in the next lap, were heard racing furiously along the line of spectators the excitement was intense. With indefatigable efforts and untiring stamina, Mills paid away, and, once more, was in the lead, and, on the termination of the tenth mile—22-min 40-00—Mills was two yards in the van. At the close of the proceeding, the race was clearly in the stage of the procedure.

that he began to tire, his energies seemed to be gradually giving way to a greater degree of lassitude in his locomotive progress, and when the last mile was reached by *Stimula Sine*, he found he had only a few minutes more to run to complete the hour, and he renewed a struggle in which his distressed condition showed he had no chance of success on that occasion. The hour being up, the pistol was fired, and it was found that during that time the winner had accomplished eleven miles and a hundred and seventy yards, which distance we pledge ourselves to be correct, as well as the accuracy of the time.

company of having deserved success, although it is not in the power of mortals to command it. The loser was afterwards matched to run Mower, of Norwich, one mile, for £50 a side. Time:—
